Research Projects:

Funding Agency	Title of the Project	Grant(in Lacs)	Year
CSIR	Improvement of surface integrity frictional behaviour using Solid Lubricants	5	1990-95
CSIR	Aerostatic cum Aerodynamic support for high speed spindles in Machine Tools	8	1992-96
DST	Micro Electro Discharge Machining	10	2004-06
AICTE	Stability and Reliability based design of Machine Tool Spindle by Quasi static and Dynamic Analysis	9.65	2006-07
AICTE	Measurement and Analysis of Advance Ergonomics Attributes	10	2008-09
