ABOUT COEP

Established in 1854, College of Engineering Pune (COEP) has a glorious history of excellence in engineering education. COEP has witnessed many notable alumni like Bharat Ratna Sir Mr. M. Visvesvaraya, Prof. Thomas Kailath and Dr. C. K. N. Patel (both decorated with coveted IEEE Medal of Honor) and scores of others. COEP was granted autonomy in the year 2003. Today, it continues to be a role model for technical institutes of India. The hallmark of COEP is its strong and widespread alumni network, support of the industry and companionship that the institute shares with several foreign universities. COEP is consistently ranked amongst the top 20 technical institutes in India.

DEPARTMENT OF COMPUTER ENGINEERING AND IT

Established in the year 1992, the Department of Computer Engineering and Information Technology is one of the youngest departments in the institute. The department is also recognized research centre under University of Pune for its Ph. D. program. The department boasts of highly qualified faculties who perform research according to needs of the society and then teach the students. It promotes open source software development and its student's have been closely involved with such development projects. The students of this department have brought several laurels to this institute by actively participating and winning several technical competitions of international stature. Needless to mention, the placement records for the department have been nothing short of magnificent having students placed in renowned companies in India as well as out of India.

The department has recently started Computer Society of India, College of Engineering, Pune student chapter with various technical activities.

ABOUT CSI COEP STUDENT CHAPTER

The Computer Society of India (CSI) student chapter of College of Engineering Pune (COEP) was established in October 2018. It actively organizes several technical activities including workshops, competitions, technical symposiums, guest lectures, etc. The student chapter boasts of over 220 members, and is run by a Student Council, and the Department of Computer Engineering and Information Technology. The CSI COEP student chapter aims to provide the students an opportunity to grow in the field of IT. In its first year, the student chapter had organized an expert talk on "Supercomputing and it's applications in Atmospheric Science" and a one day hands-on "workshop on Python Programming". In the second year, the chapter has held a "GIT Workshop" for students to get a gist of open source.
