 courses

Mahesh P : Review, contents, Microservices to be included, adapting these techniques in projects in further years

AM, SPG : Microservices would be too early for student as it is 3rd semester.

Practical implementation can be done for other programming subjects in same semester (as DSA)

Shell scripts should be included as current situation demands this.

App development is not suitable, can be effective course, shell scripts should be mandatory course.

"Android replaced by Shell scripting"
