

Dear Student,

From the academic year, 2021-22 the Government scholarship portal (<https://mahadbtmahait.gov.in>) has been closed. Regarding this, the eligible students from F.Y. B. Tech to Final year B.Tech and M.TECH(Only for SC/ST category whose parent's income is below Rs 2.50 Lakhs), have filled the online application on the same portal. Now the institute has completed scrutiny of the same application and found that some students have uploaded the wrong documents. Hence, applications are reverted back to the student's login. (Herewith attached Department wise students list). All students are requested that do the necessary compliance before 16.08.2022. So, Institute does the further process. If anybody student does not comply with it and if, the scholarship application is not approved or the scholarship/ freeship amount is not sanctioned/received from Government, The Institute will not be responsible for the same and those students have to pay open category college fee. So, take it seriously and do it as earliest as possible before the stipulated period.

Note: *The student whose application has been returned, please follow the next steps.

After clicking on **My Applied Scheme** from their **MAHADBT login** and clicking on their own **Application ID**, the reason for which your application has been returned is mentioned. Please frequently check the application status, till it is not approved.

* If the students has paid the cast category(SC/ST/OBC/SBC/VJNT/EBC/EWS) college fee and till date the Govt. Scholarship/Freeship application did not fill, those students requested that fill the Scholarship /Freeship application before the 16.08.22. After the due date, the open category college fee will be charged.
