

### Best Project of M.Tech [Mechatronics] program 2016-17- till date

Sr. No.	Project Title	Name of Student	Year
1	Design and Mathematical Modeling of Unmanned Aerial Vehicle	Patankar Madhavi	2016-17
2	Development and Analysis of Soft Humanoid Robot made from Flexible Fluidic Actuators and Compliant Links	Bhushan Darekar	2017-18
3	In-car active Health monitoring and Gesture control using non-invasive techniques	Deshmukh Tanmay	2018-19
4	Verification and Validation of ABS ECU (2 wheeler application)	Onkar Bhosle	2019-20
5	Cotton Picking Robotic Arm control And Object Detection Using Raspberry Pi	Ms. Mrunali Panzade	2020-21

### Best Project of M.Tech [Manufacturing Engg. and Automation] program 2016-17- till date

Sr.No.	Project Title	Name of Student	Year
1	Improvement in changeover time using lean manufacturing principles in die casting industry	Mr. Agrahari Vijay Ashok	2016-17
2	Design, Develop And Automate The Pattern Making And Pattern Finishing Process	Shinde Ravikiran Panjabrao	2017-18
3	Experimental and Comparative Study Between Resistance Spot Welding and Laser Welding of Automotive Steels	Rathod Sagar Maheshbhai	2018-19
4	Study and Development of Process Parameters for MEMS based Triaxial Electrostatic Accelerometer using UV SLIGA	Gubbi Vishal Vishnupant	2019-20
5	Rank order clustering approach to multi-item inventory classification for small and medium enterprises (SMEs)	Hiran Chetankumar Patel	2020-21
